Mr. Geo. M. Bacon,
State Engineer,
Salt Lake City, Utah.

Dear Sir:-

Am writing for some information in regards to
using water on land that has not been filed on.

In our company we have stockholders who when the ~~XXXX~~
company was organized subscribed for a certain amount of water-
stock, and when proof was made of beneficial use of water it did
not cover the entire acreage. Since that time some parts of the
land has gone wet and swampy and don't need any water ~~applied~~
applied on it and the question arises, can a stockholder use the
water on land that was not included in the proof of beneficial
use. Has an application for the change of ~~the~~ Place of Use got
to be filed in your office?

We have several stockholders effected that way and
would like your opinion in* the matter.

Yours very truly,
Lakefork Irrigation Co.,

Oscar Nelson
Secretary.
